01 EXPERIENCE

Debitoor

APR 2014 - FEB 2015

UI / UX Designer - Copenhagen, Denmark

I have been on the intersection between the invoicing and accounting agile teams working in close cooperation with the lead designer and the development teams, delivering in total the UI and UX of 42 user flows, 12 complex modal windows, 8 complete pages and also the mobile application.

* My rate of concept to feature implemented and deployed in production was of 100%.

LAMDI

JUN 2013 - CURRENT

UI / UX Freelance Designer - everywhere / remote

Self-managing workload and providing deadlines by working directly with clients to provide an accurate design solution for them. My duties are covering web and mobile application design, brand identity, front-end development and social consulting for small and medium companies.

* My rate of concepts to feature implemented and deployed in production is of 94%.

VeryCreative

JUL 2012 - OCT 2012

Junior Web Designer - Iasi, Romania

As a web designer and front-end developer, I was responsible with web and mobile application design, brand identity, icons, prints and front-end development, helping a number of over 10 companies implementing changes in their business by using my integral work.

* My rate of concept to feature implemented and deployed in production was of 90%.
